EDITORIAL

This edition of Awareness may be the most important in Contact Int. history. As a direct results of our experiments one of the research team now believes he is in telepathic contact with another life-form. Full details follow on page 2. This contact has been held consistently for over 3 months. If the testimony he is getting is true, the very secrets of life may be revealed! A full, frank description of the nature of the intelligence involved is reported, but the essential details of how the break through was made must remain confidential.

We can only wait to 1993 to establish how much of the predicted events come about. A massive increase in the numbers and complexity of the crop circle phenomenon is forecast, with other new phenomena to appear.

Another startling event in that the Ministry of Defence has decided to freely communicate with UFO groups! After years of non-committal replies to our letters we are now getting actual UFO cases passed on. The material sent to us is reproduced in this edition. All one can say is - where is the government cover-up now? Has the mystique of Ufology been removed or are we only getting hold of the dross? Decide for yourself. Of course with the USSR in liquidation, the serious work in the MOD must have been considerably reduced so perhaps they can now find time for their staff to give more detailed answers to UFO group enquiries.

Every once in a while the whole country is involved in UFO events on the same day. New Years Eve 1978-9 was the last memorable event when what was believed to be a satellite re-entry created mayhem and over 500 telephone calls were logged by Contact International from all over Britain. On August 16th 1992 a similar situation arose what what were described mostly as blue lights were seen over the whole of Wales, Northern England, Midlands, Scotland and down the East coast between 10 pm and 11.45 pm. The only area not reporting appears to be the South of England. The popular explanation of this is that it was excessive meteorite activity (shooting stars). However as some sightings lasted up to a minute this can effectively be ruled out. A secret USAF warplane has also been mentioned as a possibility as its flight path would pass over Wales en route to a base in Scotland! However, this would not explain sightings on the East coast of England. Looking through a dozen or so press clippings, it appears that we may have some genuine UFO activity on the night of August 16th. If any reader happened to see something on this date (a Sunday) please inform the Data Research section.

There have been recent articles and publications about "Orgone Energy", the organic energy postulated by Wilhelm Reich and associates. This is also linked to the term "Radionics". We are aware that experiments carried out by Reich in the 1950s produced staggering results in the manifestation of plasma forms and healing power. Unfortunately the experiments got out of control with operators becoming ill and changing skin colour. Reich was ostracised and the results of his work covered up. It is now apparent that the experiments may have been on the verge of a break through in the understanding of life energies and explanation of UFO experiences. Some are now associating Orgone Energy with crop circle formation, and I propose to expand this debate in future magazines. If you have information please write in.

The Editor.

WORLD EXCLUSIVESTATEMENT FROM CONTACT INTERNATIONAL

After a year in the investigation of the generation and deployment of ENERGY; it is believed that:

AN ALIEN LIFEFORM IS PRESENT IN THE ATMOSPHERE

This life-form has communicated directly to one of our research team after certain activities which took place on June 25th 1992. Telepathic communication is still present 3 months later. A further 3 witnesses not directly working on these experiments are also believed to have achieved a degree of contact.

The nature of this intelligence is completely different to any previous known forms of life. It is PURE ENERGY and EXTRATERRESTRIAL and responsible for creating crop circles and other UFO related events since 1980. It will remain with us on Earth for all time. Full details of what it involves is described by the prime witness below. It should be stated without further ado, that the witness believes the life-form to be BENIGN although it is vastly more advanced than the human race. You cannot see them but their presence can be felt by manifestations and healing power which will vastly increase in future years. They stand naked out there - no spaceships/saucers are involved.

The exact nature of the experiments which lead to these astounding revelations cannot be reproduced publicly, but part of the testimony of the prime witness is herewith produced.

As with all aspects of Contact International research, this is not for profit or publicity - whether it is true or not, will of course, be dictated by future events.

THE CIRCLE MAKERS: "They are an extraterrestrial life form of pure energy who arrived in the Earth's atmosphere on March 20th 1980, after travelling one million light years from their planet called METAN. (which I assume is a way of describing 'no metal' - a gaseous body). They use "time capsules" to travel here in one year. The planet is in our galaxy, but on the other side to Earth. ?

The life form feeds on pure energy, and it had survived a billion years in this way, until the planet Metan began to die with its temperature falling to almost absolute zero and its energy sources fading. In desperation, the entities numbering 950 left to seek fresh energy supplies elsewhere in the Universe. They reached a point of no return, and then found Earth - their salvation. There on the surface of our planet were over 200 sites of free Earth energy, the finest of these being in England. For the past 12 years they have tuned to the human race and "fed" from the energies.

The 950 entities evolved all at the same time by a process beyond our knowledge, and describe themselves as "needle" shaped or like a dentist's drill. The eye of the needle is the brain measuring a foot across in all cases and the shaft is an energy conversion unit varying from 6ft to 32ft according to the "wisdom" of the body. The colour stated is red. The attainment of Wisdom is their only reason for living and its acquirement is jealously guarded by each member. They have no cities, spaceships or material possessions except WISDOM, and is stated to be on average 1,000 times greater than the average human

being and the arch body (they acknowledge a leader) is 3,000 times wiser. They do not reproduce or die. It has been a matter of luck which bodies had the best energy supplies and consequently, the greater length/wisdom. This can be seen in the variation in the complexity of the crop formations.

I have only been able to ascertain one element is present in the body - ARGON, an inert gas. The rest is pure energy. They are also in another dimension - a time warp. They have made conflicting statements as to their position in time compared to human existence. The latest is that they are 3 days ahead of us. I am not even trying to understand the reality of this.

The 950 bodies are scattered all over the globe, with 52 over Britain, because it has the best source of natural energy. Some bodies are desperately short of energy and have to be sent "parcels" via the winds from those that are sitting on good supplies. I have been shown a good source close to Silbury Hill and another at the bottom of Chilcomb down, Winchester, both areas where crop formations have been prolific.

Bodies are 1000ft above the surface and cannot come below 500ft because of pollutants, namely nitrogen dioxide and carbon monoxide, which would permanently damage their sensitive structure (these give US enough trouble as it is). Where there have been good energy supplies, the body in that area has been able to take in enough to keep its temperature down to -90 degrees celsius and reveal itself to the human race by making crop circles. Otherwise we would have no idea that the visitors were here.

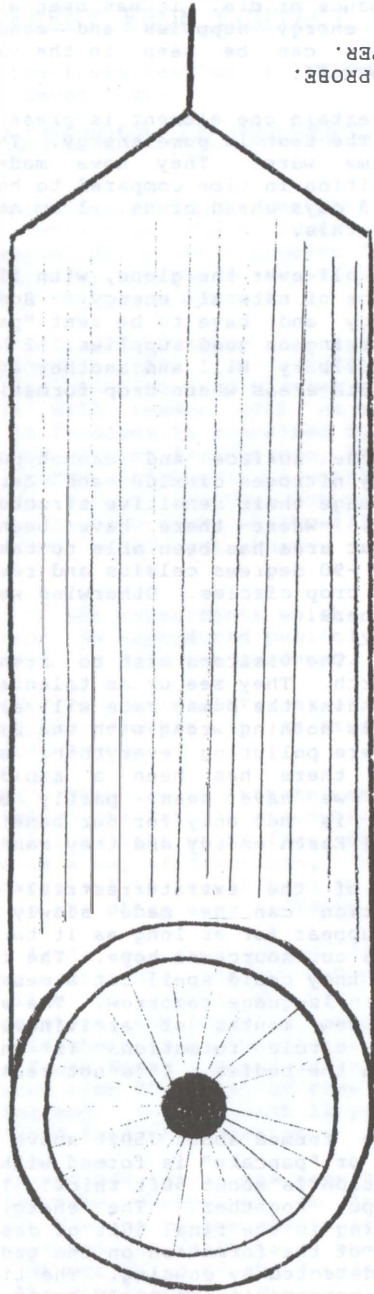

THE PURPOSE OF CROP CIRCLES: The visitors wish to create a harmony with inhabitants of the Earth. They see us as talented but foolish. Without their guidance they think the human race will eliminate itself in a thousand years. There is nothing wrong with the Earth - good for a billion years, but humans are polluting everything and since the arrival of the visitors there has been a rapid increase in Environmental Awareness as we have seen, partly brought about subliminally by them. It is not only for our benefit but THEIRS. Pollution absorbs the natural Earth energy and they cannot "feed".

They wish to make us aware of the extraterrestrial presence, but enigmatically. The revelation can be made slowly over a million years, and the circles will appear for as long as it takes. In time they will replace religion as our source of hope. The formations must remain enigmatic - of course they could spell out a message in plain English or any other modern language tomorrow. The visitors learnt all Earth languages within a few months of arriving. However the prime reason for creating circle formations is the competitive application of wisdom between the bodies. It's not really for us at all.

The circles themselves are formed about 750ft above the field they eventually mark. A "parcel" or "pancake" is formed with energies in layers. A well formed formation is about 50ft thick. There is no way we can know how it is all put together. The energy mass slowly descends to Earth accelerating in the final 50ft of descent. Part of the "pancake" remains on top of the formation on the ground - that is how the energy fields are detected by dowsing. The time of fall can be held up to ensure that it happens in the early hours of the morning ensuring maximum privacy. In any case nothing is seen or heard as the work was done several days earlier. The formation has to pass from their time to ours - again a process of time warp."

The prime witness has communicated with the aliens in several ways. The following questions were answered by a moving needle which selected one or more alternatives exactly as denoted by the asterisked statement. The replies were witnessed by Contact Int. chairman, secretary, treasurer and one other in attendance. The questionnaire has been run through 6 times over several weeks and the same answers replicated. The needle is most definite about which answer it chooses. The prime witness solemnly declares that he is in no way influencing the movement of the needle.

Readers are invited to forward their own questions for answering in this way, or by directly communicated response. We understand that a reply is always given.

Final Comments

- (i) Only 26 bodies are "circle makers" to the present time. The others have mostly been too short of energy to create any.
 (ii) They state only 4 countries have experienced the art- Great Britain (21 makers), Canada (2 makers), Germany (2 makers), USA (1 maker). Statements about crop circles in 20 other countries are regarded as inaccurate.
 (iii) A major event involving the whole population is now taking place which will enable dramatic activity to occur in 1993.
 (iv) An aerial display of blue lights seen over Wales, Scotland and many parts of England on the night of August 16th, 1992 was a predicted manifestation by the visitors.

We will of course continue to report and update information in future editions of Awareness. The prime witness wishes to state that for the time being - "just believe they are there". As they are calling the tune to some extent we do not know how much of what they say is accurate, but most of the above has been replicated and found consistent over 3 months.

Much has been recently commented on ORGONE ENERGY as being the source of crop circles. This follows the highly significant and banned work of Wilhelm Reich in the 1950's. The prime witness has been informed that this energy exists but is not the source. Orgone Energy is an off shoot of all life on Earth but is wild and uncontrolled energy. Much more can and will be said later.

You are not expected to believe all of this in one go! It is just a case of waiting to see what happens in future years. As mentioned in the text, a gradual revelation is to take place. Our minds would be blown, literally, if these beings manifested everything immediately. All reading this statement will be dead and gone by the time even a fraction of the total potential is revealed. Already we are seeing human frailty in the paranoia developing over crop circles. The circles will continue to appear virtually ad infinitum, and as they say, this is only just the beginning-----

MOD FILES RELEASED!

Editor: It is somewhat to our amazement that the M.O.D. after years of non-commitment on the subject of UFOs has elected to reveal to Contact International a full description of their policies towards UFOs and have tendered 5 cases which they claim is all they have received in that many years. Whether the new friendly co-operation is a genuine change of policy or something more sinister is up to you, the reader, to decide. We are reproducing below the M.O.D. letter and the 5 cases some of which have needed severe editing because of grammatical errors. The only censorship involved is to delete names and places so that the witnesses remain anonymous.

Frankly I would commit most of the cases to the lunatic fringe, and not publish them, but as they are part of the MOD package, they are included herewith. Are they the tip of a very much larger iceberg?

Letter from the Ministry of Defence

Dear Sir/Madam,

We have had a number of recent enquiries about the contents of UFO files held by the Ministry of Defence, And I thought it would be useful if I put you in the picture on what we hold.

Our files are made up of UFO sighting reports, together with enquiries about other aspects of the UFO phenomenon, and the position of the Ministry of Defence. Virtually all the UFO reports we receive relate to lights or discs in the sky, or various ill-defined lights or objects. In my time here I have never received any reports of a close encounter, but we have, in the past, received a very small number of letters that might fall into the category of a close encounter of the third or fourth kind. I recently had a request from a researcher to release these reports. As we receive so few, and recognising their value to researchers, I agreed that these reports could be released. I also said that I would make this material available to those UFO groups that we refer witnesses and enthusiasts to, and I therefore attach this for your information. As is usual when releasing UFO reports, I have deleted information relating to the identity of the witnesses, together with other personal information. I draw no conclusions from this material, and remain open-minded as to what may have prompted these five reports. I have not included material relating to reports that are already in the public domain, such as photocopied extracts from books such as "Above Top Secret".

I will keep you informed about any such cases in the future, and -as usual- will encourage any witness to getting touch with you. I remain of the opinion, however, that reports of close encounters are more likely to be reported to organisations such as yours, than to us.

More generally, we are able to answer specific queries you may have about particular sightings which have occurred recently, and can let you know whether we have a report on the incident, and if so, what it contains. We will also do our best to answer any specific questions we are asked, and can also give general information about our files, and what they contain. However, the files that we hold only go back to 1985, with previous files having been "archived", and sent to the Public Record Office. Because these files are covered by the "30 year rule", and as, prior to 1967, UFO files were destroyed after five years, files held in this office are likely to be the only accessible UFO files at present.

Dear Sir,

I am writing to tell you of what happened to me in the summer of 1989 the month of May. (1 Line Censored) I was sleeping at a place called Feltham Lane, where they are building a new bypass. It was about 3 o'clock in the morning. I did not write the day down.

I was walking towards the railway lines when I heard the sound of a railway engine; well that's what I thought it was. The railway lines were straight in front of me, signals were on red. I could not see the train coming but the noise became louder. Then I looked to the left down the bypass. A flying saucer had landed! I still cannot believe what happened to me that morning.

When the saucer had landed two aliens came out-not green men nor did they have funny heads. They are the same as us, humanoid. they were dressed all in black. The saucer had lights coming out of the top, red, blue and white. My memory has faded a little bit, but not that much.

By this time I was hiding under an earth moving machine and was terrified. The first alien who came out knew where I was; he pointed to me and shouted "capture that man before he tells anybody else". The second alien was checking the engines. That's right, they have real engines which they can rev up, they sound like a train, but much louder.

Are we to believe that somebody on this planet has built a fully operational flying saucer with a diesel engine? These two aliens can speak perfect English. They only use their engines for taking off and landing, and they fly near the railway lines and railway engines because they sound the same. It's a cover. They glide in flight.

Have the Russians built a flying saucer-are they that clever? Somebody has somewhere, how did they get through our radar, Warminster army barracks are only a few miles away. What weapons do they carry-I didn't see any visible ones?

I was at the wrong place at the wrong time according to what the alien shouted at me. Has anybody else been captured? It was all over in 5 minutes. When the saucer had taken off, the train came.

A few weeks after this event a lady reported a flying saucer in the local paper. Guess where-near a railway line! Looking back it seems like a nightmare, but I am afraid it's all true.

You now have a real insight into flying saucers; that they have real engines which can rev up, and can fool our radar.

With great respect, I know that the war in the Gulf is a very big problem for all of us. I also know that you need hard facts and evidence which I cannot provide. I keep asking myself- if only I had a camera! Of all of the books I have read on flying saucers none of them have mentioned an engine or anything like it.

It has taken me a long time to write this on paper. (4 lines censored) Nothing will change what I saw-nothing at all.

The main thing about the saucer is the engine. Who made it, if it's man made, what country made it?

The next time our pilots see strange lights on the ground it could be a flying saucer, especially near a railway line.

It cannot be a diesel engine as it wouldn't have enough power. Surely it must use some kind of fuel, why else were they checking over the engines. Nobody else knows about this except you. This letter must be treated with some air of secrecy.

Nobody knows about the engine except the MOD and me. (1 line censored) but what I saw still remains. Wish you could have been there sir, it really was fantastic. The saucer was as big as a house. Even though I was afraid, there was an air of excitement. They are here and humanoid. Nobody knows who they are. Saddam Hussein might be a threat to World peace but he won't last long. We hope not!

Flying saucers are a bigger threat. They can sneak in and out without getting caught. We don't know how many there are or what weapons they carry.

Please do not scorn or laugh at what I've written. I didn't find it funny at the time, nor do I now.

P.S. Perhaps I was in the right place at the right time, because of the engine. Date 23\1\91 Somerset

CASE 2

Dear Sir/Madam,

It has taken me a long time to decide to write to you. I am also quite convinced that after you have read this letter, you will probably throw it into the dustbin and have a good laugh at it. But I will go on anyway. I have tried so many times to put pen to paper and write in such a way that I will not be made to look a fool. I've thrown away so many letters that I have begun. This one is going, I've finally decided.

Here goes! On my way back from Southport after visiting a sick Aunt. My Mother and myself were heading towards Manchester. We both noticed a bright light. I will not go into great detail about what the light did, but the culmination was that our vehicle was slowed down by an odd looking black type 1930's car that was in front of ours. The driver was tall, stocky, and wearing a strange German type hat. Even though his vehicle was dangerously close to ours not once did he show any movement or any sign of involvement. My car was slowed down by this vehicle in front from 65 mph to almost a standstill. Both my Mother and I felt that there was something very wrong and odd about the whole thing. I decided to open my window and look out. To my horror, above my car was an unusually shaped craft of some kind, about 30 feet above us. The lights on this object were huge and very dazzling and the size of this thing was roughly about the size of a double decker bus on its side twice. The strangest thing though was that (Here comes the hard bit) we both felt as though time had stood still, and it was very frightening indeed. We felt nothing, heard nothing and felt nothing. It was though we were dead or not there. I remember hitting my head on something, probably the window of the car and I screamed. Suddenly the car that was in front of us disappeared and so did this odd craft. We drove like crazy to a petrol station and stopped. We didn't need any petrol but we just wanted to get off the road. The object wasn't in sight at first and then it was suddenly there again in full view. I must say it was a beautiful thing all lit up. We did notice a sort of dome amidst the light, but

we were very scared indeed. My car was back to normal by now. Whilst the object was above us all the lights in the car (my car) went haywire, and I could smell a strange sweet burning.

I dropped my mother off home and finally got home myself. My husband was distraught. He thought that we had been in an accident. We left Southport at 7 o'clock in the evening, and I arrived home at 10.30 at evening. The first thing my husband said was, "where is your coat you look freezing". It should have taken us just over an hour to get back from Southport to Manchester. Just after I arrived home I noticed blue marks on both sides of my thighs, and I was very sick for a couple of days and also I had some terrible dreams which I would not like to go into on paper.

We worked it out that 55 minutes went missing on our journey home and a dream that I had about a being that was 6ft tall, maybe taller; blue eyes and white shoulder length hair who wore a one piece silver or white suit with no pockets or anything. He said in my dream, that he had seen me when I was thirteen years old and no matter where I go he would know where to find me, and if it was necessary, he would find me. I am now thirty eight years of age. The incident I am writing about only happened a few years ago. I am frightened and I do definitely believe that something is going to happen again. I can't talk to anyone about this because I don't think most people would believe me. But I swear to God what happened. There is so much more involved, that I could not put pen to paper and discuss.

Please I would be so grateful indeed if you could help me solve or at least explain to me what happened on that road, and why it happened to me and my mum. I am a happily married woman who holds down a small business. I am told I am voluble, intelligent and trustworthy. I have read so much about UFO's since the sighting, and I get the feeling that most people who have a visit from these crafts are either crazy or attention seekers. All I can do is speak for myself and my mother. Believe me, I have had the chance of the story being plastered all over the newspapers. The Mirror tried to con me into selling the story, and so did Womans World. But I do not want publicity. All I want to know is why they, the people on that craft, wanted or needed to contact me. I am totally confused. I understand that you have all your red tape and stuff to consider. I also expect you to reply to me in such a way that you will almost certainly make me out to be a fool. Well I'm not a fool and neither is my mother. We both know a great deal about the incident and we are willing to tell you all we know, if you are willing to listen. But in return I want some long overdue answers.

One thing that does bother both my mother and myself was not so long after the incident on the (censored), my mother was walking home from shopping and it was daylight. Her attention was caught by a bright light which flashed at her three times, then disappeared. Six miles away at the same time we found out later, the same light which was enormous, did the same to me as I was driving home with a friend. This is also strange.

If I don't get any help or advise from you I really don't know what to do next because I have a gut feeling that we have not seen the last of this odd craft or the occupants.

Please take this letter seriously, because we need you to, I have never written to anyone about all this and I think it is about time something should be done or at least discussed.

P.S. I would like to know that the Ministry of Defence tend to concern themselves about objects sighted in the UK airspace. This object was in the UK airspace and it did fly below tree level and it was not a craft from this World believe me. If you don't want to accept this or at least investigate it then I for one will have seen serious thought provoking concern for the defence of our country to say the least.

Early 1987, Cheshire.

Case 3

Dear Sir,

I am writing to you today with extraordinary news. I believe there are "aliens" as in "extraterrestrials" who are here on (censored) looking for someone to grant "landing permission" officially. I appear to have had the honour as bearer of this historical news. I say that because I recognise who these aliens are. It is urgent that you equip a forested region to receive them. They are the legendary "Feathered Serpents" last heard of in prehistory in Inca Peru. I only know that because I am interested in South Americas history in a big way.

I believe for some years now I've had a 1st kind encounter which has gone on and on and on! They are as in the legend, Serpents, but a curious genetic mix of three species. Birds, snakes (Cobra type) and man. I have been spending time in their company believing them to be a strange new type "Magpie". I should say they communicate between themselves with a call like a bird, resembling one of our own Raven cum Blackbird noises. They are here in peace and they've simply said "hello" to both me and my daughter. They use telepathy and that's how they communicate with us. please find a telepath who can send and receive as I can. I've been on "duty", 4 years already, and need a rest. I would reckon that my phobia about snakes is getting in the way of my continuing with them. I can't control the shakes. They are strangely beautiful and immensely powerful. I would estimate their "length" at least 20 feet plus. With the cranial capacity of the 3 species they evolved from, their brain power is awesome, if they use all their full capacity. They have huge heads and can fly as birds can and in the manner of tree snakes too. They're just amazing! They mean no harm and I have no idea of their future intentions at this point. I believe they could wipe us out no problem if they wanted to. If the legends are true which they appear to be, the staff at the landing should wear tinted goggles, as the landing region will be bathed in a strong glowing golden light. This explains the obsession the Peruvians and the Mayans had with gold. Their scout craft produces the light, light resembling strong sunlight at noon. Golden light! Non radioactive! (Description of Photographs follows)

Can you confirm there are UFO's over Perth Scotland? My sister lives there and is having roof problems too. She's also a telepath I think, but doesn't realise it! I know you know they are here. Your battle cruiser the M12 was parked at Liverpool Pier then another ship took its place in February/March with better equipment on board. It's likely a white ship patrols the Welsh coast appearing to do "tourist" duty I.E. The public can walk on her sometimes, is part of that fleet. Would I be correct?

I forgot to say that in this fleet is a body of them, at least fifty individuals well enough to fill 2 big trees anyway. there may be more than that. You should behave as though they were a visiting royal party as they were treated by the Incas. Don't go over the top

please! Don't destroy the peaceful work I have done for you!

You wonder why they chose an urban area this time round? I think they acted on a funny idea I had before I knew them properly after reading a Von Daniken book. I wondered what it would be like if the "gods" did return and use an opposite geographical place to Peru, and instead of a remote mountain why not smack in the centre of town. It's a joke in one respect. They understand humour too.

I am not a crank, just an ordinary person. I would like my life to return to normal now; so would the aliens. I am not attention seeking, just trying to attract your attention on their behalf; simply a message carrier. I know my work is finished almost, once I have handed them over to you. I don't have a criminal record or anything, I'm not a terrorist!

The feathered Serpent did say in Peru at the dawn of time (as we know it) he would return. He was very pointed about it according to legend, he came to them in human form. This time they present in their natural shape. I can understand the awe the ancients must have felt at the original UFO landing. I feel incredible peace near them. I am normally non-aggressive anyway so I'm not too surprised.

I was thinking of walking into RAF Sealand at Chester, but I thought the O-in-C of the base would react negatively and hold-up things. (Assuming I got past the gate guard that is)

Please move quickly it's vital you do. If you want to meet them too.

CASE 4

Dear Sir,

Your first reaction to this letter will be one of pure disbelief. However let me assure you I am neither insane of character as the facts will prove.

During WW 2, as I am sure you are aware, a crashed UFO was recovered by the military somewhere in this country. I should like to know the exact date and location of this event? It is possible this was Pussylock Warden the location of which I am as yet unable to discover. There are several options, Wistman's Wood by West Dart Devon, between Garo point and Blackstone point Devon, the Norfolk Coast or Wenlock Edge. In fact the name Pussylock Warren could be quite wrong, it just came into my mind one morning from where I know not.

The crashed vehicle contained two males from Spectra, a planet orbiting the star Zeta Tacanae and a female from one of the two uninhabited planets in the Sirius system, Amazon, the planet of warrior women. That female was me. So I have a right to ask my question (see sketch one)

Spectrans are very white with oriental features, no hair and "Mr Spock" ears. They can and do interbreed with Terrans. Although Spectra is a member of the Federation of Nine you may not know them. The people you work with are from a planet orbiting 82 Iridani. They are your "brothers" descendants of Adam. (This planet may be Thebal)

I will now acquaint you with my stay in brief. I am a wearer of the purple, a top rank in the military. Some years ago our President

Adrasta, asked me to come to Earth, with Utravina, another wearer of the purple, to check out what was going on. (I was very familiar with Earth) This woman betrayed me and I was captured by Spectra troops. I protested. They ignored me. I killed them. I remember them laying peacefully over the control console with its rows of small square push buttons in chalky shades of grey, blue, yellow and pink. Colours they use a lot. I cut the drive confident that my death would free me from them. I was wrong. The vehicle fell like a brick (To this day I hate lifts because of that little falling feeling one gets.) When it struck the ground I must have lost consciousness for the next memory is of laying face down on the floor, my head on its left side, limbs spread out. A piece of earth in front of me I think. I suppose the two also fell on the floor. A warm feeling spread throughout my body. It was quite nice until it stopped me from breathing easily, my eyesight blurred and then blackness.

Whilst my body lay inside the UFO I was taken into the Spectra computer. That was a strange experience.

The parents of my present body were chosen in 1940. They saw a pocket shaped UFO trailing a blue flame, and experienced a strange stillness.

Although Spectra rule me they will not tell me why I am here.

They have another body just like this one. It lies in a bed wearing a sort of helmet from which hangs a thick cable plugged into a computer probably; behind a panel in the wall.

CASE 5

I am writing in response to the letter received, dated 9th March 1982. As my information can no longer be considered as classified, I am now able to pass it on to you.

The letter that I sent to you, was only a small fraction, of the work that I had done on UFO research. I was in fact in physical and psychic contact with an ET called Algar; whom I have had a relationship with since 1958, and it continued until 1981, when he was killed by another race of beings.

So to start at the beginning. I was seven years old when I first saw traces left by a UFO. At the time I lived at (Censored) Glasgow. One Saturday morning I had the impression that I should go out the back, so much it was like an obsession. When I did go to the back, I found three indentations in the ground; they were in a triangular formation. Each indentation was the same distance from its partner, and they gave the impression that three large ball bearings had been dropped there. My first thought was that it was a UFO; but I had never ever heard of a UFO or flying saucers, and yet the thought seemed normal to me, as if I used it on a regular basis. I told my father who was rather quick at ridiculing and poo-pooing what I had told him. Anyway, a couple of months later, the first visit came from ET's, which was followed by a few more. They were of green gas which solidified when it came in from the passageway, which led to the toilet, the door, and the wardrobe, which was situated against the door preventing it from opening. There was one which was green and very large, that had eyes all over it, this one came three times. Then there was a woman with very sharp features, and what looked like fat worms sticking out of her head, where the hair should be. The last visit from the large green thing happened when my father tried to get into the bedroom.

As usual I was against the door, with fear. my father was at the time fairly athletic and no weakling, but no matter how hard he pushed he could not get the door open; not until the large green thing had gone.

In 1959, I found semi-transparent, slug like creatures crawling up the wall on the opposite side of the back. At this period of time I was in with a band, especially, the lead singer (censored) and the drummer (censored). Both of them saw the creatures. The end product of this was that we armed ourselves and started to shoot them, we used .22 air rifles at a range of fifty to seventy five yards. When we did kill them, they fell off the wall and took on the appearance of cement that had got damp and solidified. Quite often they would fall and appear to go through the ground leaving no trace at all. One day we found that we were unable to hit our targets, and we could see our shots pass through the targets, by the ricochet off the wall, and after that we found it was a waste of time trying to shoot them, so we gave up as a bad job.

I was (one line censored) and Algar was with me then, even in spite of other ET's going away. A strong bond was forming of friendship and trust. One incident involves telepathic contact, and that occurred, following an incident where I was unusually indecisive. It was when I was on guard duty, and I was asked if I wanted the first tour to which I normally said yes, but thank god I eventually declined, for the first guard was critically injured with the pick elf he was carrying. It was on the basis of safety, that we were to go in pairs from then on, and it was under these conditions that I got a telepathic link with Algar. We were returning to the guard house after our patrol, and to our right was a field which had lighting only on the road on which we were walking. Apart from the lighting mentioned, the field was totally dark. I heard only I can describe as a whisper, and it was saying that someone was creeping about in the field, to the front and slightly to the right. I immediately looked in that direction but saw nothing. But as I heard this whisper several times before, and it had proved accurate, I decided to follow it through. I sent my partner around the camp museum, which was situated about 20 yards behind us; and I went to a lamp, and prepared to go into the field. It was at this point, when someone came out of the dark. I then called my partner and after a few heated words, I convinced the stranger who had no ID on him, to accompany us to the guard house.

The real work began in May, 1979, when my wife and I formed a team, and together we collected such data as :-what the different coloured lights on a UFO means, how they manage to evade radar, what fuel they use and what it looks like. I have been to their bases which were in Wirral and Cheshire. There was a curious incident which took place over the River Mersey, by the Wallasey Town Hall. There were six UFO's flying at speed up and down the river, when I noticed a black one was trying to manoeuvre the other six. Unfortunately, the black one was shot down, it hit the water in front of the town hall. As I was watching, then the whole UFO disappeared; leaving the water to splash, as if done by an invisible entity.

In June, 1981, Algar, was ready to approach the government in person. I was over the moon with pride to be used as the medium between alien race and our own race. Unfortunately, another race of ET's decided to attack Algar, and his team of scientists, and killed Algar and several members of his team. That of course was that. It was not until October 24, 1981, that they sent some one to dominate me by using threats, and eventually attacking me. The ET died during his attack on me. Since there have been four responses to the telepathic

messages sent out, but two of those contacts have been lost. But of the two who are still in contact, one is a woman, but I am unable to give you her name. The other is a male and his name is Malcben, he says he comes from the Milky Way, and his planet is called Platone.

I am intending to make contacts strong, and hopefully make a meeting between the alien race and our government, with the information that I have now given you, I hope that you would reconsider sponsoring my research. The information that I have given you is accurate and truthful. Although there is lots more, I decided to give you what I thought was the most important to you.

ITN REPORTS (DEC 1987-SEPT 1989)
PHOTOS FROM PHOBOS 2 SPACE PROBE
 by Peter Baldwin

One night between Dec 1987 and September 1989, while I was living in Kidlington, I was staying up late one night watching TV. The 2am newscast from ITN on Central caught my attention. Soviet scientists who had been working on the Martian space-probe Phobos 2, were visiting Exeter University to discuss some of Phobos 2's photos with English and American scientists. An infra-red photo of the "Chaotic Terrain" on Mars, showed a pattern of regular roughly circular shapes; ITN showed the picture. An American scientist remarked that it reminded him of a street plan of downtown Los Angeles. A second picture, also screened by ITN, showed another area of the surface of Mars, but with a huge cigar-shaped shadow. The scientists knew it to be a shadow because known landmarks could be seen within it. However the cause of the shadow was a complete mystery. A third photo, the last transmitted by Phobos 2 before it went out of action, showed something which according to one Soviet scientist "should have not have been there". This picture ITN did not screen. That was all. I eagerly awaited the next newscast, expecting one at 3 am. The next bulletin from ITN was however at 5 am. This time, the same story was reported, but with a difference. The feature started with a clip from Orson Welles' 1938 radio broadcast of "War of the Worlds", of Martians advancing on New York from New Jersey. In short, ITN were debunking the report as something not to be taken seriously. After this 5am broadcast, nothing. Nothing on TV or in the papers. Even in the Astronomy magazines, nothing more unusual about Phobos 2 than incompetent Soviet scientists fouling up the mission through faulty computer programming. So, the question remains; is this a serious UFO incident, lending weight to sci-fi ideas of Mars such as Ray Bradbury's Martian Chronicles or the background to Total Recall, or was it an April 1st spoof by bored journalists, or mischievous scientists? Or maybe, as ITN speculated, unusual aberrations of Soviet photographic equipment? Anyone else heard anything on this, or have any comments?

What Happened: (Geoff Ambler)

The first circle was already reported in our last edition - a single in rape-seed near Sutton Scotney Hants. As this was a very early event before the end of April, high expectations were in place for the rest of the season. Sadly in May and June in spite of favourable conditions, only small formations of a standard going back 3-4 years were seen in fairly small numbers. Many of these were obscure enough to suggest that everything might be a hoax. Indeed the leading experts were acting so cautiously in "calling" a formation that virtually all had question marks placed on their authenticity.

By the end of June rumour and counter rumours were flocking around the various groups waiting to see something spectacular. Here we had a scenario of hundreds of people tramping around Wiltshire with very little to see. The press were virtually ignoring the scene this year.

Suddenly, from July 9th onwards, the large formations began to appear. First came the spectacular "snail" formation in the famous East field at Alton Barnes. There was absolutely no doubt that this was a representation of a snail and it was measured at over 400ft in length. Another 3 of these strange markings were to appear in fields nearby. On July 12th a large double dumb-bell was discovered from the air at Aston Rowant, Oxon, just off the M40. Although close to several roads and in the area covered by Oxford patrols, this formation was incredibly difficult to see from the ground. This was certainly the largest formation to reach Oxfordshire.

Further big formations turned up at the end of July and well into August. These were nearly all in Wiltshire from Hungerford to Warminster. The ones I examined showed powerful energies present and excellent definition - the malaise effecting the phenomenon appeared to have gone at last! A really complex pictogram based on 6 circles formed near Froxfield, Wilts on August 10th. This showed new advances in skill levels and is illustrated opposite. Amazingly, this formation and a smaller accompanying one arrived in the particular field when it had already been partially harvested, bad weather preventing completion. It might be added at this stage, that one of the busiest periods for events took place around the second week-end in August when the weather was quite awful with thunder storms and torrential rain. If hoaxers were responsible they must have been the most determined people one could possibly meet!

The exact numbers and descriptions of these later pictograms will be reported next time.

A late discovery of a MANDELNBROT SET on the edge of Oxford really restored enthusiasm although it was somewhat embarrassing for Contact and the local CCCS that this had gone undiscovered for over a month. A local radio helicopter had reported a "square" formation in mid July but had given the incorrect location. In fact the Mandelbrot was just off the Oxford by-pass less than a mile from the centre of the city. Thousands of cars passed within yards of it.

You can draw your own conclusions about this most profound figure of a computer graphic, found just a few miles from Cambridge in 1991 and virtually in the city of Oxford in 1992. Dismiss it as "Boat-Race" type rivalry at your peril!

NOTES

1. Lower circle has side path running back into a perfect loop. Standing crop tapers to a lone stem.
2. 2nd up circle has two looping paths ending in mini circles of piled wheat. The pile behaves like a COILED SPRING.
3. 3rd up circle has continuous path surround.
4. 4th up circle has looping path which cuts across main path.
5. Top circles have 3 finger hands protruding.
6. Main passageway has areas of flattened and unflattened crop. Between lower and second circle there is a small lattice
7. 6 tiny circles at top end. One has "coiled spring" centre.

On July 11th-12th a competition to create complex crop formations was held at West Wycombe, Bucks. A dozen excellent looking hoaxes were created in the dark, but if you studied aerial photographs taken directly overhead, the ragged edges became apparent. There was absolutely no dowsing reaction in the fakes which is a hallmark of the genuine circle - although not accepted as a scientific means of proving anything.

All in all 1992 proved to be a strange season with a loss of momentum which only seemed to recover at the very end and indeed some popular areas such as Cheesefoot Head, Hants and the Bucks Chilterns did not deliver at all. Elsewhere you can read what we think was going on.

REVIEW OF 1992 PREDICTIONS

by Paul Anderson

Before going into detail of events that happened during Contact Blackbird, I wish to report my predictions which were published in the last issue of Awareness. These predictions were made purely on feelings, not via any divine message from the Gods.

- (a) Barbury Castle...A set of three circles appeared here in June 150785, but having looked at them myself, I believe them to be hoaxes.
- (b) Avebury. I gave two possible sites here near to the Avebury Henge and one of them was spot on. A pictogram formation appeared here in July as close to the avenue and henge as you could possibly get without being on the road. This was a new site and I was pleased to find that the 'sensing' I use when making these predictions was still with me, as it has been in the last two years (Alton Barnes and Blacklands [near Bishops Cannings] both new sites in 1990).
- (c) Bishops Cannings. A number of circles appeared around this area, but none in the field just to the north of the village as I had felt.
- (d) At the time of writing this I had just heard of a formation in the Cheesefoot head area, but I am not sure of the exact location.
- (e) UFO at Alton Barnes. It is this prediction that will make up the rest of this article, for it is an event that happened and it requires a few words to describe the events leading up to it and the event itself.

OPERATION CONTACT BLACKBIRD

by Paul Anderson

Operation Contact Blackbird, took place between the 20th and 30th of July 1992 on top of Woodborough Hill, just to the Southeast of Alton Barnes. The land is owned by the Carson farmstead, and it was with their permission that we set up base there.

The surveillance itself was organised by CPR (Colin Andrews). But a team of people from America known as CSETI (Civilian Search for Extraterrestrial Intelligence) had been invited to take part following work they had been doing at Gulf Breeze, the UFO hot spot in Florida first made famous in 1989 by Ed Walters with his remarkable photos.

This year, instead of merely watching the skies and the fields in the hope of seeing the circle makers at work, the initiative was taken to invite the circle makers to come to our location and produce a crop marking for us. This work was done by the CSETI group using the same techniques and protocol as they have been using at Gulf Breeze with successful results. Firstly their aim was to establish what can only be described as 'thought' communication. Every night, the group would go through a program of 'mind awakening' to establish contact by thought transmission. I have every reason to believe that this was successful on a number of occasions, firstly on the night of 23rd

July. I was invited to join the CSETI team on this night and we arranged ourselves in a circle a small distance away from the rest of the CPR team. In all there were about 25 people. After about 45 minutes Colin Andrews shouted to us that there was an unknown object in the sky; the time was 10:25pm. We then broke from the circle to see the orange light phenomenon hovering in the sky to our West, apparently just beyond the town of Devizes. The light was quite intense and it remained stationary for about two minutes after which it moved off towards the North accelerating relatively quickly as it did so. The intensity of the light then diminished until it could only be seen through binoculars travelling North until it blinked out.

Approximately three minutes after this event (which was filmed) a white light was seen to the Northwest of us travelling very fast towards the Southeast. At the same time, two red lights were seen travelling due East, North of our position. These continued to travel Eastwards and as they did so they moved further apart until it could be determined that they were not joined to one another or the same object. The sightings lasted no more than fifteen seconds.

Following these events the CSETI team then commenced stage two of their protocol; the use of lights. High intensity halogen spotlights were shone into the sky forming triangles on the clouds over and over again. This is the same technique that had been used in Gulf Breeze. (A technique that has been rewarded with response from the UFO's).

The team continued to shine the lights into the sky, and at the same time I took the initiative to form a triangle with one of the lights in the fields below us. We continued this process through the evening but nothing else was to happen.

However, the next morning a new formation was found. Just to the North of Devizes is an old hill fort called Oliver's Castle. Below the hill on the morning of July 24th were found three circles, joined by three lines, in the shape of a triangle. Is it possible that coincidence alone should place a triangular crop formation on the ground, in a position where a UFO had been seen by twenty five people the night before, at the same time as the triangle was the image that we had been transmitting by thought from Woodborough hill? I leave you to draw your own conclusions.

This was not the only surprise event of the watch. Something more spectacular was to happen on the night of 26/27 July. The evening began with clear skies but by 11.25pm the rain clouds had moved in and many people drifted off to drier surroundings. However, four people stayed behind. Not on the hill, but on a track below it to the West. These four, two American, one Dutch and one English were to be rewarded, for at 00:25 hrs on 27th July they were witness to a large STRUCTURED CRAFT. This craft was judged to be some 50-80ft in diameter and about half a mile from their position, close to the Kennet and Avon canal. It was hovering very close to the ground and emitted a bright light from its underside. It also had a number of lights along its rim, blue, red and orange, with three orange lights arranged in a triangle on its domed top. The craft then moved behind some trees and it could be seen through them as it moved West towards a bridge that crosses the canal. A red light was also seen that emerged from the craft and went off across the Pewsey vale and returned sometime later. This red light was seen by at least three independent witnesses who were on Golden Ball Hill to the North, but they were unaware of the large craft as it was behind Woodborough Hill from their position. The sighting lasted about twenty minutes, but at the time of writing I am not sure of the conditions surrounding the

crafts departure.

A fuller and more detailed account of these events will be covered in the next issue of the CPR newsletter and ever more findings from CPR will be published in Colin Andrews' new book, to be released later this year.

(Editor: We appreciate the co-operation of CPR [Circles Phenomenon Research] in allowing us to report details of this extended field and sky watch.)

Opinion (Geoff Ambler, Editor):

This has been a difficult season in many ways. After the scurrilous "Doug and Dave" revelations which torpedoed the 1991 season, those personalities who had become establishment figures in the circles World appeared to become inhibited and disappeared into obscurity in some cases. Fear of the dirty tricks brigade from the tabloids attempting another scam no doubt was a prime cause. The early weak showing of the phenomenon may have given credence that D and D were the perpetrators all along! (A dozen reasons or more are given why they could not have been the "circle makers" was laid out in Awareness Vol 18 No 1)

Contact International have investigated crop circles thoroughly for four years and will continue to do so until we are satisfied that the phenomenon is completely explained - as yet it is not. What we have now is a motley assortment of Ufologists, Scientists, Engineers, Mystics and the newly termed "Cerealogists" all producing an output which may have generated more red herrings than I've had hot dinners! Is this another example of the British disease - the way we self destructed our motor cycle industry for instance? Mythical hoaxers appear from all corners - it must have been how they hunted down witches in the dark ages! Not one formation of 1992 went by without some hoax call being announced - yet no evidence that the big formations were "wrong" has been produced. In the meantime foreigners pour in - Germans, Japanese, Americans, our main industrial rivals, all think we have something very special here. Another season like this and it will be for export only!

A HIGHWAY TO PARANOIA, 'WHEN BLACK MEN CALL'

by Michael Soper

Men in black often call after a sighting and demand evidence; here are three cases for the chiller files.

CASE 1

On Jan 19th 1967, a Milan, Indiana High School Freshman, was at home due to a half day in the early afternoon. He saw an unexpected light outside and found 200 yds away there was a silvery object moving towards the house slowly. He saw that the object, a disk, was seven foot in diameter and five and a half feet high and had tiny portholes. He took a picture of the object through the window. The object floated along following the ground contour, and later this was discovered: every branch within ten feet of the objects path was dead.

This was the encounter.

In 1973, April, Reed Thompson (the witness) had an MIB-type encounter at his autoparts store which was protected by his guard dog, Queen, a 100 pound German Shepherd, an effective deterrent.

Two visitors came to the store, the dog cringing away from them, one seven foot tall, male and wearing a hat; the second was very thin and under five feet tall, long haired and female. Both wore heavy gloves. The taller started in a low monotone:

"On January nineteenth, nineteen hundred and sixty seven at four minutes until three O'clock pm Eastern Standard time, did you see something unusual?"

Reed replied: "I've been so busy today I can't even remember what I saw yesterday at three O'clock."

"On January nineteenth...", the humanoid repeated word for word what had been said before.

"Yes I did," replied Reed, and he told the visitors about his encounter.

"Did you take a photograph?"

"Yes."

"I must have the photograph negative NOW."

"I'm not going to give them to you."

An argument ensued, a loud argument. Eventually Reed admitted the photograph was in a bank vault.

When his assistant slipped out to check their car, he found that what was apparently a yellow 1969 Buick le Sabre without chrome, was in fact totally empty, having no interior whatever.

This worried them a bit!

The large one said: "That does not matter, ...will..(not be a) problem. We will go get..."

The little one said: "Yes, we will go get..."

Reed said they should leave. They got into his pickup and drove to Versailles; the yellow Buick shell mere inches from his back bumper! Reed then went to a garage in Versailles where welding was taking place. When a welding flash occurred (a door opened) both visitors and their car vanished instantly.

CASE II

David Ellis (Pseudonym), a publican of Matlock, Derbyshire, opened the door to a loud knocking at 7.04 am on August the 6th and found two men in black suits with black ties, shoes, and brilliant white shirts, each wearing grey suede gloves; behind them was parked a Mercedes.

The first one said:

"Mr Ellis?"

The second one added: "David Ellis?"

"Yes."

"(Might we) come in?", suggested the first. He stepped back and they came in.

"I asked you who you were." persisted David.

"Where is your wife?" asked the second.

They removed their hats and were completely bald, without eyelashes or eyebrows.

When sitting, they asked: "When was the first time you spotted the spacecraft?" (asked the first)

"How did your children first come to find the footprints in the wood?" (asked the second).

"Did your wife and her sister obtain a good look at the alien that came from the spacecraft?"

"Did the doctor manage to help your daughter?"

"What do you want to tell us about what you have seen Mr. Ellis?"

"How do you know all these things?" He asked "Who are you?"

"Who have you told about what has happened here?" asked the second man, "anyone other than the police?"

"The police did not believe you did they?" said the first.

"You still haven't answered my question," persisted David, "Who are you?"

Mrs. Ellis came in:

"I heard voices," she said.

The second man piped up: "We have been speaking to your husband, we also wished to speak to you."

"About what?"

"They know what's been going on here," filled in David, "The UFO's, the aliens, everything."

The two started to leave:

"You're not leaving here till I know who the b.... h.... you are," shouted David.

"We are leaving now, Mr Ellis, do not try to stop us," said the second.

Previously the Ellises had been chased by a yellow ovoid that had Electromagnetic effects on their vehicle. On going to a farm they had found all the cows asleep and the farmer also saw the yellow ovoid rise rapidly, shine brightly, and take off into the sky. Later on Mother and Daughter saw a landed shining ovoid with a seven foot humanoid standing in the radiance. After several bangs the craft vanished whilst they were not observing. All the clocks in the house stopped at 11.30 pm.

"You have two rings in your pocket Mrs Ellis," said the first man, "Give me one."

"Why," she asked.

"I asked you to give me one."

She gave him the ring. He clenched the ring in his gloved hand and held the fist clenched at arms length stiffly out in front.

"Do not tell anyone of this meeting," said the first. David objected:

"Do not tell anyone of this meeting," said the second.

The first opened his hand, the ring was gone.

They opened the front door and went out to a black Mercedes with no numberplates, lights or indicators. The car drove away.

Mrs Ellis cried out: the ring was back on her finger.

CASE 3

Albert Bender, director of the International Flying Saucer Bureau, claimed 3 men had called on him at Bridgeport and told him frightening truths about UFO's; they were very threatening and told him he would be gaoled should he reveal what they had said. This happened in September 1953, and Bender claimed that the US government had known the truth about UFO's for two years.

Once after Bender had made a 'slip' on a long distance phone call, one of them phoned him up and told him from Washington DC: "be more careful in future,"; soon after this Bender closed down the IFSB and devoted himself to music.

In view of what later happened to many British scientists, we may consider just how serious the MIB question is, since this was also the fate of A.K Bender.

These are only three of the many cases, yet even in these there is a common strand; being soberly dressed features both here and also in other cases. There is something odd about the very formal, dark attire; wouldn't a leather jacket and chains be more threatening?

Secondly the very stilted speech which some witnesses find 'funny'; is this consistent with the delivery of a threat?

The solution may just be that some humanoids like to dress up and visit men who have seen their craft; this play acting may even be a form of wry humour. Being threatened not to discuss a landing which in some cases must have been visible for miles is slightly humorous. This would explain the stilted behaviour and formal dress.. why threats? (However threats and slaps have featured in some close encounters of the third kind).

"E.T. or NOT E.T." - IS THAT THE QUESTION?
THE SHEFFIELD INDEPENDENT UFO NETWORK CONFERENCE

by Maralee Gibson

It was pointless to go to the Sheffield UFO conference. Wasn't it? An article had already appeared in which the "aim" of the conference seemed to be the debunking of any "alien" theory, and the impression given that other theories might be thrown in alternative dustbins by alternative theorists. Was that IT, then?

Confusing.

Depressing.

Only the faithful believers in an unknown, unexplained phenomenon (by any currently known scientific facts or artifacts), or the true knowers, i.e., those who had had the experiences would have come despite the seeming disclaimer. It was a perfect example of the choices inherent in our growing self-empowerment. Always trust your own knowing. Not the words of so-called expert in theory or research, or the variously biased reporters thereof.

Now, I confess, I'm a newcomer to such conferences, although I've devoured many books on the subject over the past quarter of a century. And with no known "experiences", I fell into the first category - faithful believer. So for me, from that perspective and background, the conference was most informative and successful, and carried on without a hitch. (Well, almost. There were the annoying microphone and acoustic problems, made even more so by a personal hearing deficiency.)

But more importantly, the majority of speakers who shared their incredible stories and experiences were in no way debunkers we had half expected. Far from closing the matter, it appeared they led clearly to the possibility of a far more greatly expanded view of the universe, and awareness, than ever.

William Moore came across loud and clear as a particularly meticulous, persevering investigator and quite believable. Yet why, in all his comprehensive reporting of the Roswell case, did he not make mention of the "companion" incident of the crash and subsequent finding of beings, both dead and alive, whose proximity in time in space we have heard so much? Curious. He illustrated graphically how frustrating it is to be able to pin down evidence in the physical sense, such as documents known to exist. How much more nebulous, yet strangely similar, is the ability to "pin down" the so-called "mind-stuff". Is this the lesson for this age? Blending, synthesising, understanding that the seen and unseen worlds can be sometimes interchangeable - and equally valid? And "real"?

Dr. John Shaw's inability to incorporate personal experiences of others within his theory thoroughly enough to allow them to feel heard, and their stories taken at face value is man ongoing problem of "experts" and "experiencers".

And Jenny Randles, always promoted as one of the UK's foremost investigators seemed to me firmly aligned in the Head camp. Though thorough at reporting facts, and an interesting array of data in a dispassionate enough manner to be successful at satisfying the ego demands and criteria of "true" science, and selling books, I found her rather disconnected (or unwilling to be associated with) and "heart" knowledge. And one without the other is to me inadequate, incomplete knowledge.

Not too much real discussion occurred, as time was limited, and it is doubtful if any came away persuaded to see anything presented in a different light than previous convictions on either side of the "real" versus "psychological" fence. But overall, the program provided a wide variety of viewpoints, and remarkable uncategorized recitals of accounts of actual experiences which seemed "point" enough for me. It appeared to be well received and appreciated by the audience of over 200 on August 15 and 16, but the question "E.T. or not E.T. - is that the question" was never answered.
